180-C

High Temperature Single Rack Dishwasher

CNA.100

Top mounted control box is water tight and includes a rack counter, extended wash/delimer switch and easy to read temperature gauges.

Unique pull-pin design allows wash arms to be easily removed for cleaning.

Industrial wash tank and optional booster heaters are designed for years of trouble free service.

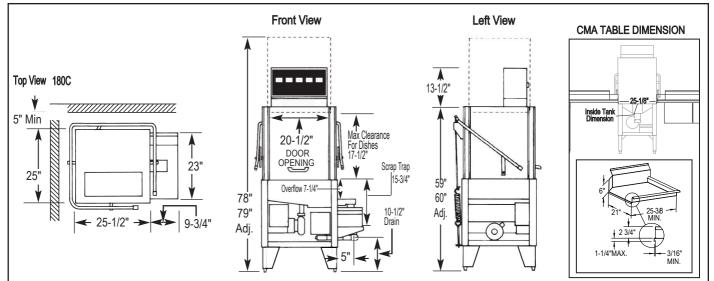

CMA reserves the right to modify specifications or discontinue models without prior notification.

**CMA-180C High Temperature** Corner Single Rack Dishwasher

#### WARNINGS:

- Plumbing connections must be made by a qualified service company who will comply with all available Federal, State, and Local Health, Plumbing and Safety codes.
- CMA recommends utilizing a water softening system to maintain water hardness measurements of 3.5 gpg (grains per gallon) or less. This will assure maximum results and optimum operation of the dishmachine.

#### Summary Specifications: Model CMA-180C

The model CMA-180C single tank, high temperature dishwasher is designed for years of trouble free service, producing sparkling results while conserving energy, water and chemicals. This machine is available with an optional "built in" booster heater, assuring a continuous supply of 180°F hot water, and is easily field convertible for either corner or straight installation. Unique soil purging system filters wash water and plate debris into an external tray. The CMA-180C is NSF, UL, CUL approved. Constructed entirely of stainless steel.

Available Models:

CMA-180C Corner

CMA-180S Straight

CMA-180CB Corner with booster CMA-180SB Straight with booster Advisory: CMA does NOT endorse "Tankless On-Demand" water heaters for use on CMA Dishmachine products. CMA DOES endorse, and highly recommends, the standard "tank" style water heaters, sized properly to handle each particular facility with their water heating requirements.
