

CHANNEL®

NEW CANTILEVERED SHELVING KITS

Channel's Cantilevered Shelving units offer a durable, heavy-duty and sophisticated solution for your storage applications.

IMAGE SHOWS FOUR DIFFERENT SHELVING STYLES: SOLID, TUBULAR, E-CHANNEL AND T-BAR

- Five **NEW** Tubular "KIT" offerings provide ease of ordering by including all required components: (4) tubular style shelves, (1) left upright, (1) right upright and (1) set of cross supports and hardware.
- Heavy-Duty, extruded, high tensile strength aluminum construction.
- Rear post "Cantilevered" design allows for ease of use, increased storage capacity, improved efficiency and unobstructed shelf access.
- Shelves adjustable in 10" increments (without the use of tools). Additional shelves available with a maximum capacity of seven shelves per unit.
- Guaranteed against rust.
- Custom widths available (contact factory).
