Elevate your dining experience with RAK Porcelain.

We specialize in the manufacturing and supply of innovative and refined, quality porcelain. Classic whites from the brilliant, pristine Polaris to the soft, warm Ivoris. Trend-setting designs from RAK Stone that evoke the feeling of stoneware to RAK Earth, reminiscent of hand-made pottery, each as durable as it is beautiful.

Because we own our factory, we are uniquely positioned to anticipate trends, offer custom solutions, minimize replacement costs, and deliver unprecedented lead times. Designed for the demanding HoReCa environment, our porcelain is renowned for its chip resistance and exceptional longevity.

We help expand your horizons by creating innovative solutions that complement the total tabletop. Our new glassware, flatware, and bar accessories position us as the one-stop solution for restaurants, hotels, and cruise lines.

We invite you to join us on our journey of innovation with this preview of our newest groundbreaking collections.

RAK
PORCELAIN

Blending Elegance with Dependability.

RAK Porcelain blends design and functionality to bring you refined tableware that is the ultimate setting for your culinary creations. We offer a range of high-alumina porcelain perfectly complemented by fine flatware, glassware, and serveware.

For top chefs around the world, we are the preferred choice of tabletop solutions. We passionately strive to attain excellence that stretches across the globe yet is felt locally. We raise the standards of our customers' expectations ... then deliver beyond that standard. The goal is worry-free performance that creates memorable dining experiences for all guests.

Set the Table. Set the Mood.

Setting a table is also setting the mood. Are you striving for understated and elegant? Bold and stark? Rustic and handmade? Imaginative and otherworldly? We have a look for you.

Each piece is made to shine uniquely in its own spotlight, while complementing a myriad of solutions to make each table-setting cater to your needs. A table set with RAK Porcelain is one of brilliance, adventure, and cohesion. Top chefs and hosts (and their guests) demand the very best. That is what RAK Porcelain delivers, time and again.

Our capabilities continue to grow.

Our production facility spans an impressive 100,000 square meters and is equipped with state-of-the-art machinery capable of producing 35 million pieces of high-quality tableware and top-shelf décor accessories annually. Our robust distribution network services over 165 countries on five continents. In the U.S. Our strategically located U.S. distribution center operates under Free Trade Zone (FTZ) status, allowing deferred duty payments on imported goods until they enter U.S. commerce. This structure allows us to be price competitive in the global market, optimizes cash flow and streamlines our cross-border logistics resulting in greater operational efficiency and cost savings for our customers. This “easy-to-reach” distribution strategy has resulted in partnerships with over 40,000 starred hotels, world-class airlines, five-star cruise lines, and other giants of the hospitality industry.

Illuminating. High Alumina.

Dinnerware is our specialty. Chefs can choose the refined elegance of our bone china collection. They can explore the wide array of shapes found in our extensive Ivoris and Polaris collections, both comprised of a high-alumina oxide body that provides durability and superior quality. Seeking rustic? Our RAK Stone Collection is inspired by studio pottery and RAK Earth captures the charm of terracotta. All of these are exclusively offered to you with the durability of porcelain that you can trust.

RAK Porcelain USA is the benchmark in restaurants, hospitality, and catering. Our products are developed to meet the needs of the most discerning restaurateur, with bold, original looks and long-lasting performance. This is how the table is set!

RAK PORCELAIN

Our mission statement.

RAK Porcelain USA redefines the tabletop with our artfully crafted porcelain. We blend cutting-edge technology with timeless design to transform dining into an elevated experience. Our solutions extend beyond the aesthetics; we focus on durability, functionality and environmental stewardship ensures that each piece not only elevates the tabletop but upholds the eco-conscious values that are important to you. We are committed to providing solutions that you can depend on!

LE BALLET

Light as a feather, sturdy as a bull. The RAK Bone China collection mirrors the graceful, delicate appearance of ballerinas, achieved with an athletic, trained core. Due to its high mechanical and physical strength, Le Ballet shows great chip resistance, luminosity, and an ethereal beauty. As a leading dancer giving the performance of a lifetime, RAK Bone China lets culinary works of art shine.

Feelings

NEW

Feelings was born from the idea that gastronomy is not just about flavors, but also about emotions. To bring this concept to life, we partnered with chefs who transform ingredients into experiences and plates into stories. Let their creations guide you into a world where gastronomy meets emotion, and where every plate tells a story shaped by the heart. The shape of a plate inspires, guides, and elevates creativity ... transforming every bite into a unique emotional experience.

IVORIS
COLLECTION

In a warm white shade close to ivory, Ivoris boasts a high level of alumina for strength. It provides the ultimate resistance against the physical demands of the kitchen and dining room as well as chemical aggression due to maintenance and contact with food products. The variety of the series offers infinite mix-and-match possibilities.

SUGGESTIONS

It's not just about shapes. Suggestions help chefs express themselves by fusing gastronomic ideas naturally with each piece. The objective is to emphasize a new way of sharing food by creating organic-shaped plates and bowls with natural textures and beautiful, irregular overlaps.
Chefs can use them to find their voice and achieve their inspiration.

Amaze

Platters and trays designed to ... Amaze. Trays fit inside deep platters, leaving a reservoir below that can be filled with ice, smoke, or aromatics to add to the presentation. Amaze lets cuisine play on all the senses.

"The moment we laid eyes on the Baantna line, we knew that was what we wanted. The color and patterns are so fun and really add to the experience and story we are trying to create. We also love how well it holds heat."

– Nicholas Shaw, Corporate Chef
Cinco Ninos, Kalahari, Wisconsin Dells, Wis.

rakstone

Food is one of the ultimate experiences that brings people together. RAK Stone was created to share unique memories, reflecting a warm spirit while remaining affordable. We paid great attention to details: high-quality materials with earthy color tones inspired by traditional studio pottery. We hope you enjoy discovering RAK Stone as much as we did designing it.

FUSION

Inspiration has no borders. Where chefs blend east with west, traditional and avant-garde, RAK Porcelain presents the Fusion collection. It's dedicated to the creativity of chefs who are reaching the highest levels of gastronomy. Here, tableware enters a sensory realm with porcelain reminiscent of sandstone, earthenware, slate, wood, or minerals.

Twirl

All the lively color and relaxed informality of the tropics are reflected in Twirl. Sandy beaches, streaked sunsets, and marine life all get their due in hand-decorated beauty.

Twirl is a hand-decorated collection and variation in colors and shades are part of the design. Each article of the collection within a production batch has different designs, which is not a flaw.

Elevate

YOUR BRAND WITH CUSTOM DECORATING

Creating memorable experiences by making a lasting impression with your guest. You can make sure that your name is front and center of the dining experience by adding your name to center stage.

Elevate your brand by customizing your choice of dinnerware. Add your logo along the rim, in the center of a plate, or customize colors of an existing pattern to create a canvas of artwork that your guest will never forget. To "carve out" a special niche, add your logo to the blade of a knife which places your name in the guest's hands with every taste.

HOW CUSTOM DECORATING WORKS...

IT'S AS EASY AS 1....2....3!

1. Choose your dinnerware or steak knife
2. Provide your artwork/logo
3. We will provide final layout for your approval and leave the rest to us!

Your customized dinnerware* order will be air-shipped for expedited service!

ASK YOUR LOCAL RAK PORCELAIN USA REP ABOUT ELEVATING YOUR BRAND WITH CUSTOM SOLUTIONS TODAY!

*Expedited shipping service applies to dinnerware orders only and will be shipped once production is complete; normal production lead times apply. This is not applicable to steak knife orders.

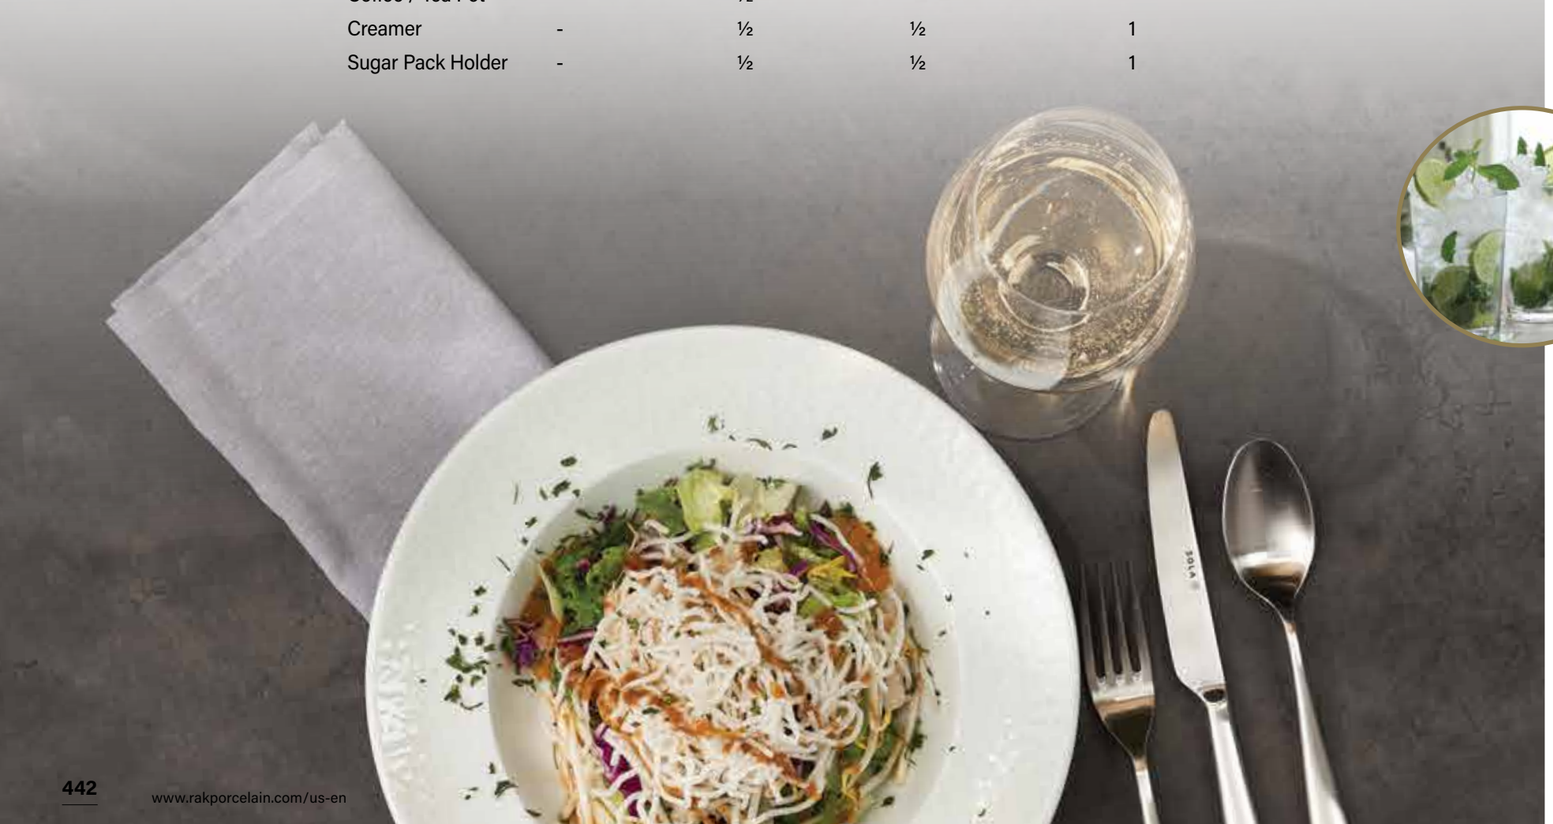

DINNERWARE SETTING REQUIREMENTS

This chart is based on standard restaurant settings. Your specific need may vary according to individual operation. To determine the quantity of each item, multiply the number of seats times the ordering factor shown for each item. Then, order the closest dozen quantity.

Example: Mug, 150 seats x 2 = 300 mugs.

Item	Size	Formal	Semi-Formal	Informal
Plate – Side	6-7″	2	3	-
Plate - Side	7 ½ - 8″	2	2	2

PRODUCT CARE & HANDLING

DINNERWARE

Here are the "Do's and Don'ts" when it comes to the care and handling of RAK porcelain.

Washing "Do's":

- Do rack dishes immediately upon reaching the cleaning table.
- Do keep proper space on cleaning tables in dishwashing areas to allow loading and unloading of dishes.
- Do remove left-overs with a rubber scraper, gloved hands or water spray.
- Do ensure optimum water temperatures for pre-wash 110°- 140° F and wash at 150° - 160° F. Load the dishwasher adequately in size-appropriate slots Ensure the rack holds the ware steady against water spray pressure.

Storage "Do's":

- Do allow dishes to dry and cool thoroughly before handling and stacking.
- Do place items carefully onto each other, never slide.
- Do always stack dishes of same sizes together – no higher than 12".
- Do ensure all racks and conveyors are plastic-coated on contact surfaces.
- Do load items in appropriate dish racks without piece-to-piece contact.
- Do place cups and other hollowware in specifically designed racks.
- Do separate metal and glass from porcelain, sort like items in tote boxes or bus pans.

Porcelain "Don'ts":

- Do not allow dirty dishes to pile up.
- Do not jam pack dishes together to ensure sufficient separation. Use metal trays and bus boxes.
- Do not overload storage space and dishwasher unit.
- Do not use metal utensils or other dinnerware to scrape.
- Do not pre-soak dishes—this affects glazing.
- Do not bang dishes against each other.
- Do not stack hot or wet porcelain items—allow them to dry.
- Do not stack cups and mugs—always store in plastic racks.
- Do not drop items into self-leveling dispensers.
- Do not store dishes in high-traffic areas like corridors or doorways.
- Do not scour dishes with abrasive pads or cleansers.
- Do not serve with inadequate dinnerware inventory to prevent overworking.

FLATWARE

Here are some guidelines to follow for care and handling of RAK Flatware.

Handling:

- Minimum amount of handling is required when perforated cylinders in portable racks are used to transport, wash, and dispense flatware.
- Sort flatware tines, bowls, and blades up when using a system where the flatware is transferred from a cleaning cylinder to a storage cylinder by inversion.

Washing:

- Remove all remnants of food from metalware items immediately after use. Avoid using steel wool or metal scrapers.
- Always separate flatware for pre-soaking and use a plastic or stainless-steel pan, never aluminum.
- Pre-soak and wash metalware immediately after its removal from the table. Do not leave metalware in the pre-soak solution for more than 20 minutes before it is washed. Change the pre-soak solution after 2-3 cycles of use. Chemicals accumulate in pre-soak and may cause harm.
- Do not use a pre-soak solution containing acidic silver de-tarnishing agents, including chlorides, bromides, or iodides, as these products cause severe corrosion.
- Always wash your metalware in hot water, and make sure you choose a cleaning agent free of abrasive or corrosive qualities that might damage your metalware.
- All Flatware is compatible with washing conditions in a standard, commercial dishwasher. It is recommended that you use PH neutral detergents to ensure that the flatware remains in excellent condition.
- Avoid low-temp dishwashing; it is not suited for metalware.

Rinsing:

- Consider adding a wetting agent to the rinse to prevent minerals in the water from staining your metalware.
- Utilize a softener if you have very hard water. A high chloride content in the water can also be damaging.

Drying:

- Avoid prolonged exposure and promptly remove the flatware from the dishwasher once the cycle is completed. Prolonged exposure to the warm and humid environment inside the dishwasher may lead to discoloration or corrosion over time.
- Make sure all flatware is completely dry after washing. Hand-drying is recommended upon removal of the flatware from dishwasher. Hand dry with a soft, clean cloth is recommended. This step helps to prevent water stains and discoloration on the flatware.

Maintenance Instructions PVD Coated Cutlery

PVD (Physical Vapor Deposition) coating is a high-tech process where a thin layer of material (typically titanium) is applied to the surface of cutlery in a vacuum environment under high temperature. This advanced coating significantly enhances durability and resistance to wear.

Care Instructions

To preserve the beauty and longevity of your PVD-coated cutlery, proper care is essential.

Daily Use

- Rinse immediately after use with clear, warm water to prevent food residue – especially from acidic or protein rich foods – from damaging the surface.

Hand Washing (Recommended)

- Wash gently with mild soap and warm water.
- Dry and polish immediately with a soft cotton cloth.

Commercial Dishwasher Usage

- Compatible with Commercial dishwashers only up to 1000 cycles.
- Only use pH-neutral detergents.
- Avoid acidic or abrasive cleaners.
- Keep rinse temperatures below 60° C / 140° F.
- Once the dishwasher cycle ends, promptly remove the cutlery and polish with a soft cotton cloth to prevent water stains.

Storage Tips

- Store cutlery separately or use dividers to avoid scratches and preserve the finish.

GLASSWARE

All Glassware is dishwasher safe. Here are some guidelines to follow for care and handling.

Helpful Hints When Using a Dishwasher:

- **Please wash all glassware before first use.**
- **Proper Preparation –** Remove excessive amounts of liquid or food from glass before washing. Pre-washing or pre-rinsing by hand is recommended for heavily soiled items.
- **Temperature/Cycle Selection –** You should use a low temperature cycle (55° C/131° F) when washing or, if possible, a special glass cycle. Use mild, phosphate-free dishwasher tablets or liquid.
- **Rinsing –** Your rinse aid must be properly dosed and in optimal measurement. Make sure the dishwasher is always sufficiently filled with rinse aid.
- **Water Hardening -** Extreme soft water is aggressive to glass. Therefore, regulate the water hardness range for the dishwasher.
- **Avoid Contact –** The glasses should not stand in contact with each other in the dishwasher. Avoid contact with other materials like pots, cutlery, and dishes. To avoid staining, ensure glasses are positioned in dishwasher to ensure all water is draining from glass upon washing.
- **Glass Racks –** Choose a proper glass rack to suit the height, bowl, and foot diameter.
- **Steam –** Open the door briefly at the end of its cycle to let steam pass and allow cooling to begin; avoid opening fully until dishwasher has cooled.

Glassware Handling Tips:

- Failure to review your product's care and handling may result in breakage of the product, diminished clarity of the glass, or personal injury. It is important to note the following tips for handling glassware.
- Avoid extreme temperature changes of glassware items. Transitioning from one temperature extreme to the next may cause stress to the glassware and risk breakage from thermal shock. To avoid this:
  - *Do not put hot items in cold glassware; do not put cold items in hot glassware.*
  - *Do not pour hot tea, coffee, or other items into a cold glassware item or one that has just been rinsed; do not pour cold beverages into glass that is warm from rinsing or a dishwashing cycle.*
  - *Only expose your glassware item to higher or lower temperature when it is already at room temperature.*
  - *Do not scoop ice with the glassware; make sure to use a proper ice scoop.*
- It's also important to handle your glassware items properly to prevent mechanical shock, which is a minute abrasion in the glass that causes weakness and makes it more susceptible to breakage from impact or thermal shock. To avoid this:
  - *Do not stack glasses when storing (unless the glasses are considered "stackable").*
  - *Do not put flatware into glassware.*
  - *Do not strike flatware against glassware.*
  - *Do not carry multiple glasses unless by the stem; only if on a tray to minimize contact between glasses.*
  - *Do not hit glassware against hard objects.*
  - *Do not drop glassware.*
- Do not pick up large glass items by the rim (especially home décor and bubble balls).
- Do lift and carry glass items by the bottoms or sides.
- Do handle glassware gently (remove abraded, cracked, or chipped glassware from use).

RAKPOLY

The **RAKPoly** collection redefines durability and elegance in drinkware. Crafted from crystal-clear polycarbonate, this line is unbreakable and designed to withstand the rigors of outdoor dining when cared for properly.

Outdoor Elements

- Sunlight: Safe for outdoor use but avoid leaving drinkware in direct sunlight for long periods, especially with liquid inside, to prevent warping or damage.
- Citrus: Suitable for citrus-based drinks but always rinse and clean promptly to prevent staining or discoloration.
- Suntan Lotion: Contact with lotion is not harmful, but rinse promptly; do not leave lotion residue on the glass in sunlight or heat for extended periods.

General Care

- Wash by hand with warm water and a neutral cleaner whenever possible.
- Do not use strong acid or alkali detergents (such as bleach or ammonia).
- Avoid peg or pronged racks that may scratch the underside of the drinkware.
- Never use abrasive cleaning materials such as steel wool, stiff brushes, or scouring pads.
- Safe temperature range: 14–248°F (-10°C to 120°C).
- Not suitable for use in the oven or microwave.

Dishwashing Guidelines

- Use detergents and rinse agents specifically approved for plasticware to avoid surface damage.
- Recommended wash cycle: 140–160°F (60–70°C) for up to 60 seconds.
- Rinse/sanitation cycle: 180–194°F (82–90°C) for up to 60 seconds.
- To maintain crystal clarity, periodically wash by hand with warm water and soft cloth.

BARWARE

18/10 Stainless Steel & PVD RAK Bar Accessory Care & Use Instructions:

To maintain the longevity of your stainless-steel RAK Bar accessories, handwashing is recommended.

- To maintain the stainless-steel finish, avoid abrasive materials such as steel wool or scouring pads.
- Avoid using acidic cleaning agents, bleach, caustic or chloride-based detergents, or any harsh household cleaning products to protect the integrity of your stainless-steel barware.
- For optimal care, wash stainless-steel products immediately after use and avoid prolonged soaking, which can damage the finish.
- After cleaning the products, rinse thoroughly with clean, cool water. Take care to dry thoroughly.
- Stainless-steel barware should be dried immediately after use to prevent spots, streaking, discoloration, or corrosion caused by air drying.
- PVD coating can last 1-3 years with proper care, offering resistance to scratches, corrosion, and fading. To maintain its superior quality, clean regularly with gentle methods and avoid harsh chemicals or extreme conditions that could compromise its durability.

LIFETIME LIMITED WARRANTY

LIFETIME ANTI-CHIP GUARANTEE

RAK Porcelain and its distribution networks offer you a limited warranty covering chipping for several collections. Please ask your lead sales representative for a complete list of items that are covered within the 5-Year or Lifetime edge chipping guarantee.

We will replace any of those items that have rim chips, on the condition that the complaint is addressed within the valid time frame of its date of purchase. This warranty is only valid for the normal use of the products. The warranty does not cover breakage or damage arising from misuse or non-ordinary use of our products.

RAK
PORCELAIN

RAK Porcelain USA extends heartfelt gratitude to all contributors for their exceptional efforts in shaping this catalog. A special thank you to our photographers—John Hernandez of Ibis Images, Chef Preston Nguyen, and Brandon Jones—for capturing the artistry of our tableware. We also deeply appreciate Cunningham Baron, whose creative vision and design expertise elevated this catalog to authentically reflect our brand identity.

We proudly acknowledge the chefs, mixologists, and industry professionals whose culinary innovations enriched these pages: The Culinary Code, Walk-In Talk Media, World Food Championships, Bryan Romero, Daniel Alvarenga, Angel Masarin, Alan Sternberg, Kevin Girshman, Chelsea Gieselmann, Jose Sosa, Michael Klicos, Jonah Friedman, Roberto Negron, David Viana, Nicholas Shaw, Eric Damidot, David Eaheart, Ricardo Viesca Gutierrez, Jorge H. Angulo, Andrea DiMaglio, Nathan Kim, Heidi Kabath, and Keyatta Mincey Parker.

Your passion and creativity continue to inspire us—thank you for helping us tell the RAK story.
